NOTE: All in-service Soldiers, regardless of component, must report to OCS with a Commander's Clearance Memo. A sample memo may be requested from the OCS program office contacts in paragraph 12 of this message. Soldiers reporting without a Commander's Clearance Memo, may not begin the program of instruction until a memo is provided to the OCS cadre. Soldiers reporting from basic training and enlisted under the O9S enlistment option are exempt from this requirement if reporting directly from basic combat training.

3. The following Soldiers have been selected but have not been medically cleared. Soldiers in this category will not be enrolled in an OCS class until cleared by the HRC Surgeon's office. Soldiers that do not clear will be removed from the selection list:

6. AC Soldiers will travel to OCS in TDY and return status. HRC will schedule OCS (AC only) but does not produce request for orders (RFO), orders or funding. Contact your S-1 or installation MPD for guidance on orders.

7. OCS for Reserve Component Soldiers is funded by the Soldier's unit using TPU funds (quota source TU). Selected Soldiers will be transferred into their new unit in the vacancy in which they were paneled and selected during the HQDA OCS selection panel. The Soldier's gaining unit will enroll the medically cleared selectee in OCS in ATRRS. If additional funding is needed the unit will request that funding through higher headquarters to USARC G-3/5/7.

8. Information on OCS training is located on the officer candidate school web site at: <https://www.benning.army.mil/infantry/199th/ocs/>. HRC personnel are not responsible for the content found on the Ft Benning OCS website. Soldiers will report not later than 1200 on the scheduled report date. All items from the packing list must be in the Soldier's possession at the time the Soldier reports to OCS. All in-service Soldiers will report with a copy of the pre-departure interview and commander's clearance memo.

9. Soldiers attending OCS must have a secret or higher security clearance prior to arriving at OCS. Soldiers who do not have a completed secret security clearance cannot report for OCS training. Soldiers must notify their S-1 who will notify this office for rescheduling (AC only) to a later OCS class. Selectees must remain eligible throughout the entire selection process up to graduation from OCS.

10. Selected Soldiers will receive AKO notification of their assigned OCS class date as soon as class reservations are completed in ATRRS. Due to the current need to grow the Army quickly some Soldiers will have less than 30 days to report to OCS for training. For this reason once scheduled for OCS the report date will not be altered without strong justification. Justified deferments can be requested by submitting a DA Form 4187 and DA Form 4187-1-R (sample available upon request) endorsed by first two commanders in grade O3 and O5 or above with "recommend approval" checked and all supporting documentation.

11. Packets will not be returned. Soldiers that wish to have a copy of their complete application packet are encouraged to keep a copy.
